

WASHERS & STAMPED COMPONENTS AUSTRALIA

“ first choice for the manufacture and supply of washers and stamped components in Australia since 1964 ”

LockRite Washer

Anti Vibration system

WASCA is the proud distributor of LockRite Anti Vibration washers in Australia.

LockRite Washers are used in applications where bolts are prone to self loosening during vibration & fluctuating loads. These washers lock on a sliding cam system to secure a bolted joint surface. Using our LockRite Washers ensures a long term vibration proof environment for just about any Bolt or threaded application.

WASCA offers these in both Hardened Steel with DELTA-PROTEKT® coating and Stainless Steel 316.

Sizes stocked are M5 through to M30. We can also offer alternative diameters and thicknesses on request.

Advantages & Features over others:

- Solves the problem around fastener failure due to Bolt loosening
- Simple, reusable & reduces maintenance costs
- Glued pairs aids in the assembly process
- No lubrication required and no failure in locking if there is lubrication used.
- No friction during locking and vibration; thus limited damage to bolts.
- Available in a variety of material to suit different working temperature and applications.
- Used to prevent fastener loosening caused by dynamic loading.
- ROHS Compliant & DELTA-PROTEKT® Plating available up to 500 Salt Spray hours.
- Price competitive

Applications include:

Automotive, Railways, Marine, Thermal & Wind, Construction, Mining, Agriculture, Earthmoving Equipment, Onshore & Offshore Projects, Process Industries etc.
